

The children have settled into another busy term in P3. As you are aware, Preview Learning for the week ahead is being posted on Seesaw on a Friday, this will keep you up to date with what is happening in P3.

Literacy

For writing, we will continue to work on using connectives and different sentence openers.

Guided reading sessions this term will take place on a Monday and Thursday. Children will be developing their skills in finding and using information. Children will benefit from practising their reading at home.

Maths

As you are aware, we have been working on multiplication and division since the October holidays. We will move onto length, mass and temperature in the coming weeks. Ideas for ways in which to support your children will be provided through the Preview Learning on Seesaw.

Across the Curriculum

Our topic at the moment is Castles. If you can support us in anyway with this topic please let us know.

Housekeeping

Primary 3 will have PE on a Wednesday. Children should have a named gym kit, including indoor shoes in a named bag which will be kept in school. These will be sent home at the end of term for a wash.

P3B have Science with Mrs Bisset on a Tuesday. P3A and P3C will continue with their Science programme in class. Mrs Allan will work with the classes on a Wednesday with an RME focus and will be looking at Judaism before moving onto the Christmas Story. Drama with Mrs Charleston will also continue this term.

We are also fortunate this term to be receiving Kodaly (a type of music input) on a Wednesday.

Please provide children with an activity/colouring book which can be kept in their trays for indoor break times.

Homework

Children will be given a focus sound of the week each Monday along with 'tricky' words. The children will carry out activities in class throughout the week to help reinforce spelling rules and patterns. These sounds and words will come home on a Monday and your child would benefit from practising them at home. Please return jotters on a Friday to be updated.

Craft and Design - Home Learning Task

This term, we would like the children to create a model castle at home. This could be a replica of a real castle or an imaginary castle. Children can use any materials e.g. junk modelling, lego or blocks. Please could children bring their completed models to school to share with their peers on Monday the 9th of December.

If you have any questions, please feel free to phone the school or make an appointment with the class teacher.

Thank you for your continued support.

Miss Stewart, Miss Anderson and Miss Higgins
